

OLG Parent Association Sports Activities 2018

3rd September 2018

Dear Parents/Guardians,

The Parent Association offer a number of afterschool sports activities. The process for registration changed last year to facilitate parents who do not have access to email during the day and to take pressure off the administrators in the school office.

Expressions of interest for each activity should be emailed to the PA sports email address olgpasport@gmail.com. Each activity allows **48 hours** to register an expression of interest and after this time the places for each activity will be allocated. In the case where an activity is oversubscribed the places will be allocated by random lottery. Places will be confirmed via email by the activity co-ordinators. A **separate email** must be sent for each activity. Please refer to the invitation letters which will be posted on the school website prior to the registration date and distributed via Whats App class groups. On the website the letters will be posted under the Parent Association tab. The letters will contain for more specific details of the term dates, class times for the different class groups and the cost for each activity.

If you have any queries after you have read the letters on the website or general enquiries about PA sports please email olgpasport@gmail.com

Many thanks for your continued support.
